Operating Guidelines

(1)   Radio Heatherwood Music Library

Radio Heatherwood Music Library Front Page

The first screen to display when first entering the library is shown across.

Seven options from the front screen will direct you to other sections of the library.

The library is divided into three sections.

The first section is the wave library (Rhapsody) yellow section.

The second is the vinyl library and includes all the records/cd's green section.

The third section is the library maintenance.

At the bottom of the screen a yellow smiley face will allow you to launch Wave cart.

(9) Wavecart Launched From Music Library
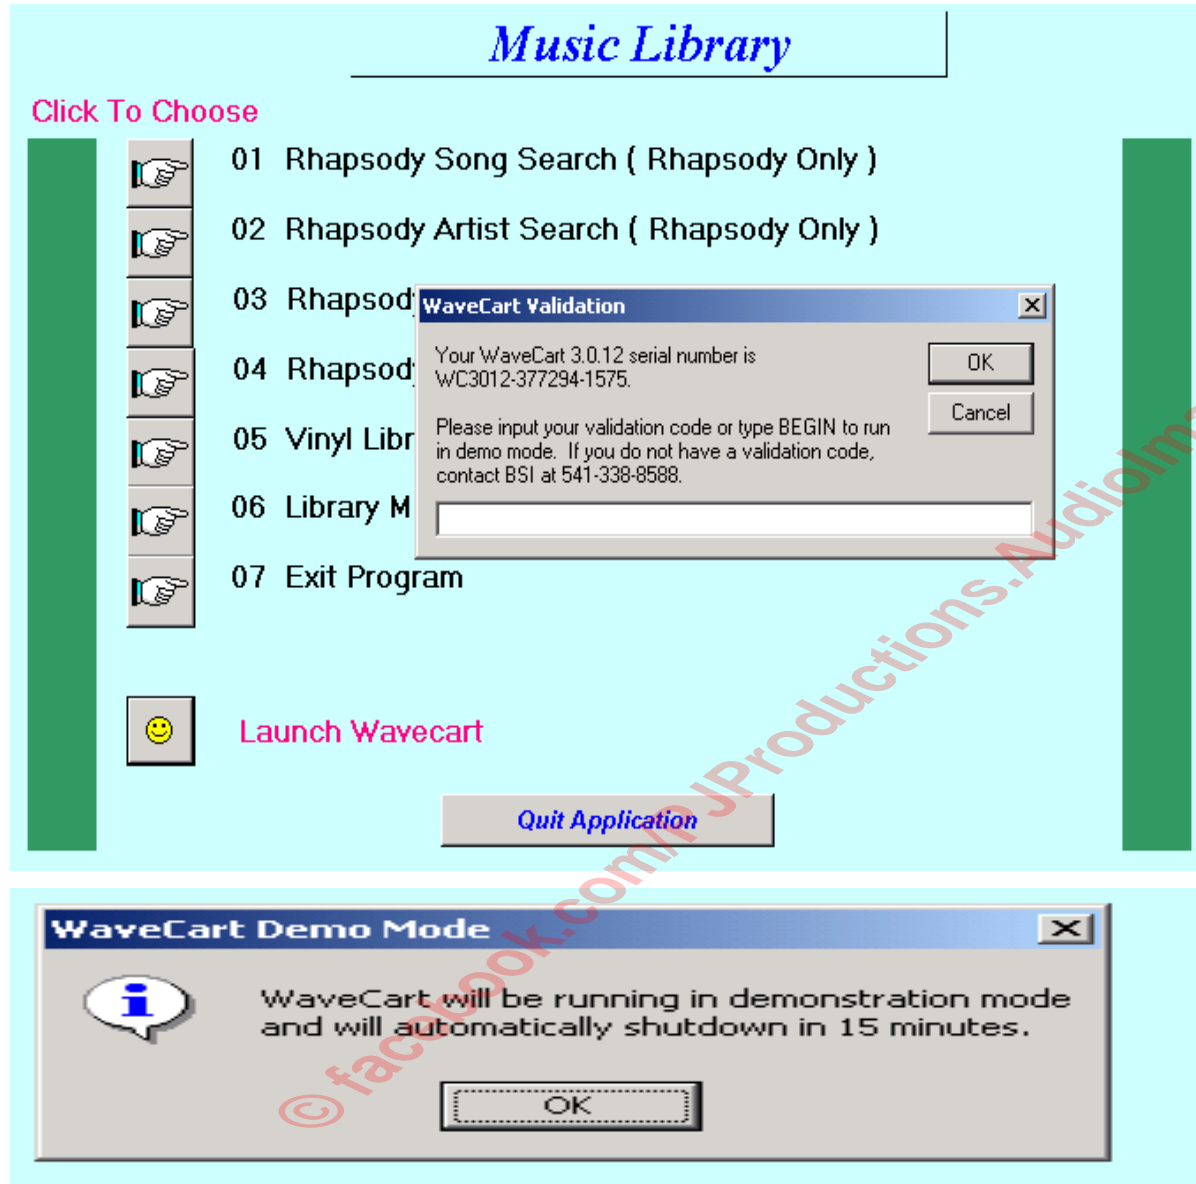

Wavecart

The first screen to display when first entering the library is shown across.

At the bottom of the screen a yellow smiley face will allow you to launch Wavecart. The program is only a demo version which will ask for a password each time it is started. The Wavecart program will run for 15 minutes in each session. This will allow you time to preview songs and create a stack without the need for access to the broadcast studio's.

It will be possible for you to create a stack on the library computer and this will then be available in which ever studio you use. See your training companion on how to create stacks

Listening Facilities

The library computer will allow you to listen to any rhapsody music/speech file through the attached speakers. Any song listed in the rhapsody section of the library can be reviewed with Wavecart.

Wavecart can be launched from any search page.

When you have used the tab key to pull up the dialogue box for a new search, if you then decide to cancel this search an error box is generated by windows. To cancel this box, click on the cross in the corner or click on the halt button or press the "ESC" key.

This error is caused because you have cancelled a macro which has been initialized,

(12) Blank Searches
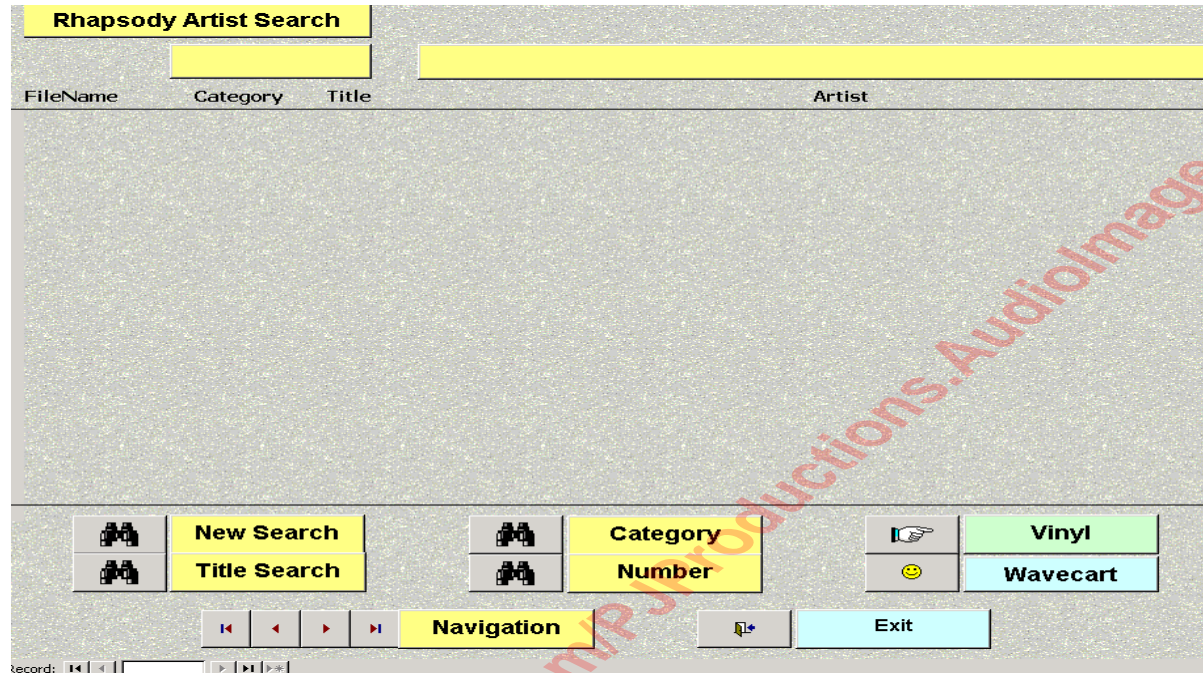

Blank Searches

There may be occasions where once you have entered a search criteria whether it be an artist or a song title and the program will return a blank screen as across.

If you wish to effect a new search from this screen position, you have two choices you can double click with mouse in middle of screen or you can click on new search .

This will pull up the new search dialogue box.

Change Database Searches

At the bottom of each search page there is options for searching for other criteria without the need to return to the front screen. In addition there is the option to search the other database for the same song or artist.

If you have used the other database search option , the search page will remain open unless you have used the exit button.
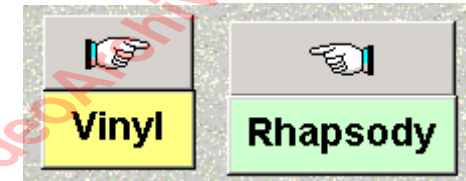

Multiple Windows Open

If you have been changing from one database to the other and change searches between the different types of search i.e. artist then song title then number. If you don't click on exit at the bottom of each page you will leave the window open and at the bottom of the screen on the task bar you will find multiple windows open. To close these down all you need do is click the exit button on each page and they will close. The library program when you first launch will show two window buttons on the task bar. This is normal.
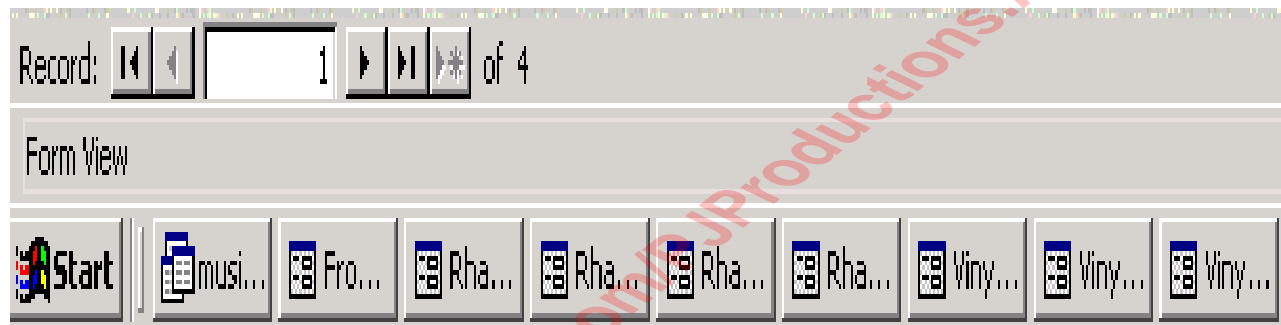

(13) LIBRARY COMPUTER. (Guidelines).

Misuse Of Library Computer.

The computer is primarily available for presenters to search for records in the library. It is not provided for you to play with or load games; or any other programs :other than the library for which you are shown.

Any person caught loading the computer with a floppy disc or trying to escape the library program on the computer; to access other areas will be dismissed.

General Care.

Like the studio equipment it will become very dirty if you eat food, and read newspapers etc., and then use the keyboard. If you use the computer:

Please Wash Your Hands.

Once all marking up has finished and programs have been prepared: Turn off the computer: Don't leave it on all evening.

If you spot a mistake on the computer or on the printouts: write the details on a piece of paper and place it on the librarian's team tray.

The computer printouts are only updated after a long period of time varying from 3 months to several years; Please take care when handling these they cost a lot of money to produce.

(14) LIBRARY COMPUTER. (Program).

Library Definitions:-

Vinyl = CD LP or Singles 45's

Rhapsody = All MP3 files recorded onto computer.

Library Conventions:-

When entering criteria for searches. The following examples will assist you:-
