

## Car Boot & Arts & Craft Fair

On Saturday the 8th June a special car boot and arts fair will be held on the center green, this is instead of the annual fete. The boot will open at 12 noon and will run till four o'clock. We need volunteers on the day to help direct the cars and man the gates to the field. This is our one day of the year in which we help the league raise funds so we would expect to see all presenters put their names forward. The turn up time will be 10 o'clock. If you can make it on this day, please mark the form provided.

## Home Furnishing & Design Exhibition

All stands are now sold out but extra space which was allocated is now being used for any additional exhibitors.

When doing your ward rounds: please ensure that the leaflets are given out with the blue books to as many patients as possible.

## Banned Record

The latest queen record " I'm going slightly mad " will not be purchased by the station. It is also not to be brought in and played. This record will be added to the banned record list in the code of conduct.

## Radio Heatherwood Supporters Group

The first of the supporters special trips took place on Easter Sunday. A mystery trip which turned out to be to Cricket St Thomas. This was the stately home as used in the BBC series " To the manor born. " The coach was fully booked and the trip raised £115 pounds for the radio station. The next trip is the charity buzz to North Devon in May.

## Patient Visitors to the Studio

I would like to remind everyone that it is not a good idea to show patients the studio especially those from the emi block. These patients could cause some embarrassment by inviting others and turning up on other nights un-announced. Whilst it is the policy of the station to enhance patient contact, we have to be security conscious as well.

## Feedback

A recent request collecting on ward 5 one Saturday produced a complaint from a patient who had no bedhead unit. The sister on ward 5 said we could move the bed if we wished. In the time honored tradition of securing a listener; with Keith at the helm and PJ bringing up the rear one patient was moved from one end of the ward to the other complete with locker and paraphernalia: "Phew" the things we do to satisfy our listeners.

Footnote: Keith I think you need driving lessons !.
