

In this months newsletter some contributions from various sources. Don't forget an item for the newsletter is always welcome.

Jingles

Congratulations to Lee for some innovative jingles for the Grand draw. A note of thanks to Peter O'Sullivan as well.

(Ed Which night does he do ?) .

Slipmat

After the sunday broadcast of June the slip mat on one of the turntables disappeared. Please can you check your bags boxes etc, to see if you have this.

Loan Radio's

The wish to have a loan radio with a patient's name on is gathering supporters. New donations have been received.

A small celebration has been noted by the management this month. Three years ago the cable for ward ten was cut. Death of the bed head units for this ward was swift. Like other wards the bedhead units receives no maintenance by the hospital and it remains the norm un-repaired .

The loan radio has provided many hours of enjoyment for those unfortunate to be without a bedhead unit. The good news for us is when a unit becomes faulty: at least we have the option to repair it.

Feedback

The patients on ward 12 have come up with their own version of our jingle" Requests and dedications too ": they have a new version " Request and medication too ": Nice One !

Time(My watch is slow)

It has come to my attention that presenters are over running on time at the end of their shows or at the end of the evening.

This practice must stop it does not smack at professionalism and only winds up other presenters on your nights. It is station policy that at the end of the evening you should go for the news at 10 o'clock.

Over running by anything over two minutes will not be tolerated. keep in time please !

Pop Quiz

(chocks away)

We're not just pretty faces down here at Radio Heatherwood you know: I recently proved this by winning a local cable radio's pop quiz; despite overhearing from reliable sources that the opposition in the final were the best bet.

Roger and his pal Simon from the Stag emerged triumphant 61 to 40 !.

A sad note was the winning prize: touted at the start of the quiz as " 12 flying lessons each ": this rapidly reduced to 1 hour flying lesson for one of the winning double. Luckily for Myself and unlucky for Simon ; He won the toss. I remain firmly grounded .

Roger.

(Ed " Never mind Roge ,better luck in our Grand draw where the prizes remain as advertised "!.)
