

RADIO Heatherwood

Presenters Newsletter Iss 54 September 1993

The Radio Heatherwood staff newsletters took many styles and methods of production during its publications.

The originals have been lost, but to show the flavour of the content we have recreated an issue (54) from scans and text files.

A newsletter originally published in September 1993.

This was produced using Microsoft desktop publishing program and would have been printed on a coloured sheet of paper. All the layout mistakes and poor positioning of items are still shown, so as not to change the history of the development of the newsletter.

A copy would have been posted on the studio noticeboard.

The only changes made to these have been the removal of personal phone numbers.

This copy was taken from a scan of a draft newsletter

All content is copyrighted

©facebook.com/PJProductions.AudiolImageandVideoArchive/

In this month's exciting edition of the presenters newsletter a tribute to a token Scotsman, in the post bag another patient says thanks, plus Yakkety yak and all your favourites.

✓ **Feedback(Saturday)**

On Saturday 14/8; patients were in for a treat during 7 till 8 when PJ reminisced over the last thirteen years at Heatherwood, playing selected records from his time at the station and some anecdotes proved a great success and the show was well received by his colleagues. Records played included, No one quite like Grandma, Whistle while you work, seven tears, and only yesterday. The evening could have been tarnished as one of the records which was to be a filler was """"3360"""" guaranteed to clear any hospital radio studio, on the first beat of the record.

☞ **Departures**

By the time you read this Radio Heatherwood will have lost another member of it's team. Yvonne Smith who joined on 2 May 1992 has taken up the offer of a University place at Warwick and will

be moving from the area. The truth of the matter is she can no longer stand the jokes of Dave the Rave, and the Paul Mc Cartney records of PJ. We wish her well for the future and thank Evie,pink nicks, Vonn Smit for all her help over the last 16 months.

☞ **Did you know**

Evelyn Duncan bought some raffle tickets when her address was in Lancashire, she now lives in Ascot.

(ED just because your nearer the prizes doesn't mean you will win).

☞ **Friday feedback about Wednesdays**

The show is good ,so good that a patient said she wanted to dedicate a request to Alan Leary shirts Holder, Graham Sunroof Hyman and Kevin all for charity Donaldson.

" Rabbit Rabbit " Chas "n" Dave.

Joking apart, I think this is in my blood. The greatest boost that you can get doing this, is the tremendous feedback obtained whilst doing ward rounds.

Kevin All for Charity

★ *Record Donations*

Michael on ward three 8/9 donated a James Last CD.

✓ **Feedback (Post-bag)**

A letter has been received 13/9 from Mrs Dorothy Porstmouth, she writes:-

Please accept enclosed cheque for £15. I should like you to put £10 towards another radio as you did for my dear Fred.

I had a brief stint in ward 5 for my foot operation, but I enjoyed my stay, helped by the sister and staff also you good people.

When I bought a battery also some draw tickets I was given a booklet. I was so touched to see my dear Fred's name in print !.

Every success for the future, you all work very hard I am sure, to provide your radio service to the hospital patients. sincerely Dorothy Portsmouth.

Nice one team.

(**ED: A loan radio was put out on the wards for Fred Portsmouth in early 1992.)**

□ **Stonk of the Month**

Roger goes for a job on a building site.

The foreman says You've got the job if you can give me a sentence using the word " fascinate ". " Easy " says Roger

" I ' ve got a donkey jacket and I think it's great- its got nine buttons but I can only Fascinate(fasten eight) " !!!!!.

Copyright Roger's Stonks.

☛ **Expose** (*Reginald K Peabody*)

In a land far far away, well just the other side of Bracknell really. A story unfolds, this is a sad tale of everyday folk; not really it's only the low down, on a low down bum called Reg.

Reg first arrived at Heatherwood in 1984/5 arriving at Accident & Emergency complaining of headaches. He was admitted for tests and during the next few years he baffled the medical profession with his ailment, Reg ended up giving everyone else an headache who he came into contact with.

To while away the hours, whilst the medical profession decided what to do next, Reg took an interest in the radio service regularly phoning in to offer words of encouragement or to complain about the night nurse. During 1986 Reg took a turn for the worse and slipped into a coma and has been silent ever since.

Some unscrupulous presenters have been playing copies of the record donations tape which Reg was responsible for; all those years ago, this has caused signs of life with Reg down on ward 17, only last week he was heard to say " Is I Just called to say I love You, still in the Charts I keep hearing it, " and he slipped back to sleep. The thought on the medical professions mind at

the moment, will Reg make a full recovery ?.

Watch This Space for further developments !!!!!.

(Footnote:- If you have any ideas on how to revive our Reg, or not: contact PJ with the details.)

☛ *Did You Know*

When we receive donations of £5 or over, or record donations etc. We will respond with a personal letter of thanks to the individual provided the address has been supplied.

☛ *Grand Draw Jingles*

The results of the best grand Draw jingles this year:-

A big thank you must go out to all those presenters who contributed to this years adverts for the Grand Draw.

☛ *Grand Draw 93*

A big thank you to everyone this year for your contribution to the draw, an essential part of our year it still generates a great deal of goodwill with the patients staff and

P.J.

☛ *RHSG*

Sunday 19/9 and a coach load of pensioners were kidnapped to be fed to the lions at Longleat. On the way back car stickers noticed on the coach windows included:-

We've survived the lions of Longleat !

We've fed Dave the Rave to the lions of Longleat, but they spat him out !

We've stroked the pussies of Longleat, and now were arm-less !

✓ *Feedback (Tuesdays)*

On ward rounds last Tuesday Sarah took a request for some Chopin when I was looking up the records I came across the request slip, I looked up what she had written wondering who it was and when after several attempts I couldn't find it I asked her " it's Chopin " she replied.

How was the request written " Showpan "

OOOOOOOh Carla Davis.

(ED: I always thought it was chop(pin)as in the fire wood)

Fridays report:-

Friday 13/8 was certainly an eventful night at Radio Heatherwood ! We " lost " our plant winner, even the nurses on ward 8 didn't know where she was !!. Sarah tried the stag, Huberts bar and even the station , but she was no where to be found. After four trips up and down the stairs the plant was finally delivered to Linda on ward 8 after a re-draw.

PS. When we found Linda she wasn't listening !.

Feedback

Whilst at work on Bank holiday Monday. Roger found time to ring Star Fm and win two tickets to Thorpe park. These he has donated to The Grand Draw.

Nice one Roge.

Feedback

A donation of £2 has been received from Bill Welford of Windsor. Bill also has written a nice letter to Kevin about his exploits.(See Notice Board)

Happy Birthday to you

On Friday 13/8 Julie got them in a twist ! (she also got a Basque for a birthday but more about that later) The request was for Greensleeves by James last on LP342 but poor jools picked 342S Sweet - Hellraiser ! well she was

21 x 19 on Saturday 14/8.

Record Donation

Stonker man recently received a donation of records whilst at a car boot by a former ward 8 patient who recognized stonker man.

Did You Know

Doris Day recorded a song about the " Dedworth stage " " here that's in Windsor in it "

No you fool it was the " Deadwood stage " oops ! sorry.

Nice one Julie.

Company Donation

3M recently donated £50 . " oooh Carla Davis was responsible " for bringing the cause to their attention.

Yakkety Yak

Who needs a man for her end ?

Who will be Russian about from September ?

Which member of the management team had a size 3 love bite on his neck ?

Loan Radio Donation

A Mrs Daisy Latham has recently donated (14/8) £10 for a loan radio she says " thanking everyone for all the care and love through the years ".

CD Donation

Lila on ward 5 knows a very nice man who has donated some nice Cd's to the station. Andrew Morgan is Logistics Manager for WH Smith.

(ED maybe we can get him to take a look at Carla's logistics, ooooooh)

Guilty or Not Guilty

In the course of compiling the newsletter each month stories are handed to me in various ways, if you want your story to be anonymous we have a policy to protect the innocent or the guilty. Presenters newsletter always in confidence:-

(ED: Did you here about the supplement last month, it was passed to me by an old Indian Scotsman " Hawkeye the Noo ")

Only Fools and Horses

Due to the success of the charity stall in March this year, we have booked the stall at Bracknell market for Saturday 26th March 1994. It is now time to put away any bric a brac or items which you would like to donate to the radio which we can sell next year. This years stall raised £300.21 let's hope we can better that target. Ask your family and friends to collect items for our stall.

(ED: We will even try to sell IJCTSILY 3360)

New Teamleader

" Ooh Carla Davis " has finally been given the title of Teamleader for tuesdays after months of trainee status. We wish her well in her new role and hope that she will stay for many years to come.

(ED: I'm all for transferring to Tuesdays I'd like to work Carla Davis

Staff Recruitment

Every year we suffer the dreaded disease of people joining at the beginning of the year only to leave after training at the end. It is the intention of Dave & Gordon to advertise for more staff this side of Christmas instead of waiting till the new year.

Did You Know

Tim Short has decided to take a month off and may return in 30 days or not as the case maybe ???.

Tribute to Radio Heatherwood

The following story was published in the latest edition of the nahbo magazine unfortunately all references to star trek were omitted and the credit to our token scotsman was also omitted. The following is as it was written.

Star Trek Three

(The Search for a Loan Radio)

"Oh No, not another Trekie story"

It could well be, have you ever tried to find a bedhead radio working complete with a headset.? ("There is life Jim, but not as we know it ")

In 1988, Radio Heatherwood installed the inductive loop system at Heatherwood Hospital. In the past we have written updates on our experiences we are now five years on and how have things changed.

So you want to install inductive loop, or FM and offer, a loan radio service !.

This update centre's on the provision of loan radios for patients. The first provision of personal radio's, ten in all, were purchased from Dixons, these were marked with yellow paint ; they cost just under £10 and were FM/AM. We installed these in our ward 10 which had no bedhead radio at all.

The batteries for these, could be obtained from the trolley shops and replacements were left to the visitors relatives etc.

The outcome from provision of these: we don't have any left; all but one were pinched systematically.

The next step was to purchase twenty radios from Tandy called flavour radios we opted for the yellow ones. These are AM radio's with headphones using PP3 batteries. This time we removed the tuning control and the front of the radio had a non removable plaque attached stating, who had sponsored the unit. Since 1990 these units have grown on the wards and experience has dictated special modifications to these units. We made changes in the way, we collect requests on the wards as well.

Current Mods to Radios

Tuning Knob Removed
(Discourage the removal of the radio)

Sponsor plaque on front
(Encourage further sponsors)

Headphone jack changed and cable secured to unit(Discourage headphones from being pinched)

Battery compartment lid secured with cord
(prevent loss after continued opening)

Luminous Able label sticker (Details of where batteries are obtained plus what to do if the unit appears faulty).

Ward Rounds

A new set of guidelines is now in place to all presenters when on the wards.

The obvious change we now carry the batteries with us: Current charge £1 for a PP3(Red Seal) this gives us a profit of 8p per unit. We don't plan to make profit, on the sale of batteries, in fact we allow each night to give away, three freebies to needy cases in a three week period. The current state of battery sales is thirty a month supporting ninety units on the wards.

On ward rounds; one presenter will check the empty lockers have a radio, if they do they check to make sure the battery is OK if not, remove the battery. The same presenter will be in charge of sales of batteries and the tuning in of personal radio's bought in by patients. Any faulty radios will be removed from the ward and will be repaired by our loan radio manager (Scottie) " There's life Jim in the radio but not as we know it ".

In the early days we would leave the radios in a box in the store room on the trial wards. This was OK but patients would sit all day and vegetate not knowing the service was there, to be used all day. Cheap batteries would leak in the radios and this would cause much damage. The new red seal are better but cannot be left in a radio for a long time after it has run out. Radios are left in the lockers and are regularly

checked.

Patients do bring in their own radios but the quantity at present, is still only a small percentage.

It's not always possible to cover all the wards with loan radios in a night, so a dial a battery jingle is broadcast. Selling the loan radio service is an art and to persuade the patient to buy the batteries requires training. The best time to sell the battery is when there are visitors round the bed.

Other changes for the loan radio service is the posters on wards where there are loan radios, plus regular announcements, regarding batteries, faulty units, sponsorship, etc.

Sponsorship

We advertise, for the donation of £10: a unit will be place on the ward with your name. Thirty-eight units have been sponsored from patient's relatives, twenty-four units by presenters, and the balance by the League of Friends.

Repairs

The units do fail and we do have to repair them for various reasons, the costs currently incurred; come nowhere near the cost of repairing or replacing plastic headsets for the bedhead units.

The future

The loan radio service is here to stay: by the

end of the summer this year we would have provided a unit for every bed on five wards. The success of the sponsorship has dictated the pace of introduction (145 units).

Summary

If you thought, providing a loan radio on the wards would be easy; it isn't!. Much time and effort does go into providing the service, the rewards that can be obtained says it all. The success of the loan radio service depends on the commitment from everyone including the nursing staff. As like all ideas that come along this one has its floors, but we must weigh them against no service at all. Installing Inductive loop or Fm: will improve the service on the wards: but it will still frustrate patients at not having a radio freely at hand. Look at providing some kind of Loan Radio Service as well

The proposed introduction of Fm will put demands on stations' volunteers in areas that were never contemplated. Loan radio's will play a very big part in the future of stations: are you ready to take the challenge?

This article dedicated to the hard work of our presenters and our Loan Radio man without which Heatherwood would be a poorer place.

Postbag

The following letter has been recieved:-

Dear Mr Davidson Smith

During your recent prolonged absence from the hospital radio and the league of friends during the grand draw season- An emergency meeting was convened of many members of the radio staff.

In the EGM held at the Stag, Ascot High street between the hours of 23.05 and 23.25 the following points were made.

That the grand draw is currently not viable and that for it to continue in it's current form Mr Davidson-Smith must put in an extra 45 hours during the three selling months. This is of course on top of his current 10 hour allocation and his 144 hours plus backroom work.

It has been noticed that there is an increase in resignations from the radio staff over the past three months. The reason for this has now been tracked down to Mr Davidson Smith attempting to save money on the

number of newsletters published per month. The money saved we found out in a secret document, is being used to fund a trip to see Paul Mc Cartney in concert in Berlin.

It has also been pointed out that Mr Davidson-Smith has been seen to bribe members of the radio staff in a bid to transfer them to Saturday nights. This is in a bid to oust the current female presenter from the Saturday line up.

Currently Mr Davidson-Smith is falling behind in his plans to expand the services the radio station is offering. The radio staff are still waiting for the mezzanine studio they were promised way back in July(the one with the shower in it), and the new satellite studio situated in the Bahamas has again been postponed due to the extreme lack of battery sales on a Saturday night.

The members of the EGM has therefore decided that Mr Davidson-Smith can no longer continue in his role of Management member and that of Engineer, secretary, community relations manager, Welsh office liaison officer and mezzanine tiler . In a vote put to the meeting it was decided that

he be immediately transferred to St Peter's hospital radio Chertsey. To this effect a military coup at the aforesaid hospital was put into place last week in His name. This was successful . Mr Davidson-smith, it was suggested, is allowed to take with him the two muppet albums(the one with the frog singing about being green on it) and flowers in dirt CD. However after public outcry at this sentence, the muppet albums have been retained by the radio staff.

On behalf of the radio staff involved I would like to take this opportunity to thank you for your work and to say that you can take the yellow loan radio's with you as the radio station will be going back to the old bedhead system which is easier to administer - i.e. no batteries to sell and nothing to fix when it goes wrong(mainly because hardly any of them work anyhow).

Yours Faithfully

The Secret Seven (+ Timmy the Dog).

(ED: I always knew that dog, would stab me in the back one day)

All Change

It's all change on Tuesdays and Wednesdays as Big Al and Carla, do a swop.

(ED: oooh can I watch)

Donation

A donation of a flymo from a Mr & Mrs Wood of Bracknell has been received.

(ED: It is normal to receive records tapes or money, but a FLYMO !)

Other happenings at Heatherwood Hospital Radio

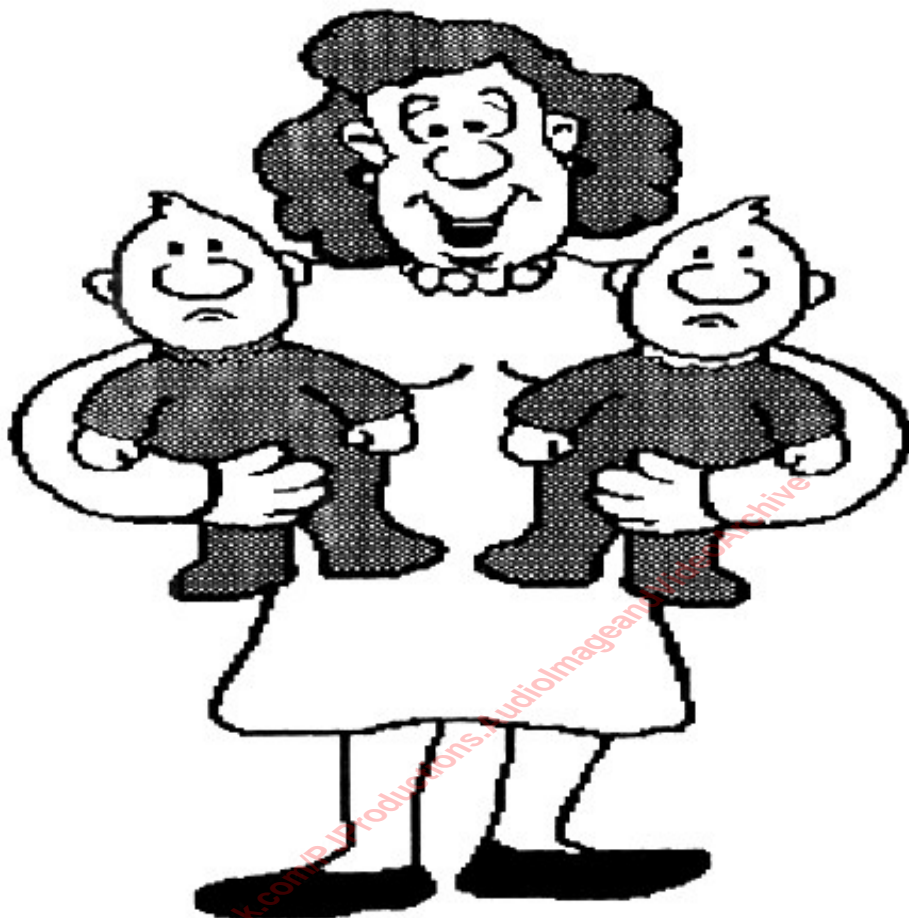

In a fit of being unable to read the request properly Ms Amanda Chivers accidentally gave away Mr G A Young(token Scotsman/spreadsheet man) instead of the mug on Thursday night. The lucky patient while slightly disappointed in the prize, has refused to return it. However her only complaint is where does she put her tea bag ?. Meanwhile the mug has taken over the post of studio manager and is doing well in the position, the only difficulty so far is in the production of spreadsheets. However it is being sent on an excel course next month, so that difficulty should be ironed out.

Mr Dave Smith finally tired of taking pensioners on day trips has kidnapped his latest coach load on a recent trip to pwlhelli (I think that's what he was trying to pronounce). The family of one 80 year old man have received a ransom demand for a packet of mints , a cheese and beetroot sandwich and a Kim Wilde record, which they have turned down. A police spokesman said that Mr Smith and a coach load of 50 pensioners should not be hard to track down at their original destination of pwllelli. However the police strongly suspect that Mr Smith was trying to pronounce Cardiff. In another report an eye witness has stated that the coach was

heading for Frimley Park Hospital with a bunch of machine gun toting pensioners on board.

Because of the latest developments which has lost the station it's entire management team and almost all of the Saturday crew. Ms Y A Smith has now been left in complete power on a Saturday night. other presenters were startled to notice that the recent recruitment numbers showed a startling increase in new presenters from the airforce. Ms Smith is said to be very pleased with the 6 foot tall hunky airmen that she has replaced Dave & PJ with. In a recent interview she stated that they were learning very quickly but that she did not seem to get much time to present a show on a Saturday night.

At the recent ward 3 fund-raising event Starring Lennie Bennett, boos were heard to come from the audience with shouts of " We want Carla Davis ". The day was saved by Ms Benny the Ball making a public appearance away from Top Cat - She has now been asked to star in two pet food commercials. And still on the subject of Mr Lennie Bennett, he is currently suing Mr Roger Hawkes for using his material. Currently sources tell us that the out of court settlement stands at 3 big daddy joke books. Mr Hawkes must also sit through an hour long show of Mr Bennet's

This months caption competition, fill in the missing caption.

✓ **Feedback (Post-bag)**

A second letter has been received from Daisy Latham 13/9, impressed with our service she has just done a collection for a friend who sadly passed away. A sum of £16 which was left over from the flowers purchased, she has persuaded the relatives to have a loan radio in the name of their loved one (Rose Pedrick).

☆ **Record Donations**

A large amount of singles has been received from Amanda Chivers.

Nice one Amanda.

☛ *Engineering Corner*

Headphones

We have now placed four new sets of headphones in the studios replacing the old DT 320's which have been with us since 1988.

Mixer Fault

A recent fault reported to me, had indicated a member or members of staff have altered the settings on the Green Auxiliary send controls. These should not under any circumstances be changed by you; these have been set to offer the optimum levels to either studio and transmitter. This particular incidence created dead air on the transmitter leaving the listeners with the notion that we have gone off air.

In future don't touch.

If you do accidentally turn the green controls: the settings these should be at; are contained in the engineering guide book, always on the CD players in studio two.

☛ *New Presenter*

Thursdays Amanda Chivers has completed her presenters training and is now a full member of the presentation staff.

Nice One Amanda

☛ *Sweethearts Ball "2"*

("*Lovers Revenge* ")

Plans are well under way for the second Sweethearts ball planned for

Saturday 12 February 1994 at the balcony restaurant in the racecourse.

✓ *Feedback*

When I first heard that everyone had something against Thursdays, I didn't really believe it but now it seems the patients have something against them too.

The proof - well last Thursday I was listening to Capital radio's jukebox when I heard the next caller was in hospital, when asked what hospital, she replied, " Heatherwood Hospital in Ascot ! "

Need we say more !!!!!

Anon

☛ *League of Friends AGM*

On Monday 13/9 the AGM of the league took place, no surprises apart from the excellent yearly report given by our Token Scotsman.(On Notice-board) The good news is Gavin Fawkes the former chairman has finally retired from the league. Gavin Fawkes will be remembered by this station,

as the man who gave the famous five, PJ and Evie for the highest collection on the credence to their plan in 1991. (see Radio History file 1991).

Fight for FM

Radio Lonsdale has been granted a one year licence to broadcast on the FM band by the radio authority. Radio Lonsdale is located in Cumbria so therefore qualifies for rural status. The cost of the licence is £1000 for the first year. If they continue, subsequent fees are likely to be £100 to £150 per year. This of course does not include PRS fee's which will be announced at the Nahbo Conference in October.

The bad news for Radio Lonsdale is the health authority in their area has a ban on people bringing in portable radio's!!!!!!.

Nice one Radio Authority you certainly know how to knock us down !!!!!!!!!

Grand Draw (Studio Manager's Dilemma)

At last it's over!!!! I think every week for the last 12 weeks, I have been trying to arrange cover, chasing people up or just reminding them not to forget their allocated times. Now we can all start getting back to normality (whatever that is). Congratulations to the winners of the jingle awards. Congratulations and thanks also to: Carla for the highest personal collection (£85) and the record for selling the first allocation quickest - £25 worth sold in 24 hours!!

PJ and Evie for the highest collection on the wards (£75). Rumour has it they were still writing out the counterfoils on the night of the Draw!

Commiseration's to Lee for losing both titles - you had a good run Lee. Thanks also go to Duncan (Sarah's better, sorry other, half) for drawing out the tickets. Never before has a Grand Draw night been so frantic - we had visions of being kicked out the pub and doing the Draw on the pavement outside. Never a dull moment at Radio Heatherwood!

As Dave said on the night, whilst the final total was a little down on last year's, we still made over £1300 clear profit (even after my claim for telephone expenses!!) which is pretty good going in view of the continuing recession. Our illustrious Engineer wastes no time in spending it. No, he has not started the mezzanine floor for studio 3, he has not even started the shower in the corner for Evie, he has bought some new headphones. At last we can do a program without our bits falling off (ear pieces I mean - if any other bits drop off in the course of your program, see a doctor).

I shall now put my feet up for a while. Next fund-raising event? Sweethearts Ball 2 - over to you Roger (or was that Airplane 2?).

☞ **CONFUSED - You soon will be**

We've had one or two staff "shuffles" this month. Carla wanted to change to a Wednesday, which she did. Al moved to Tuesday. Graham, obviously missing his Teamleader (or else scared to death of Carla!) asked if he could also move to a Tuesday. Sarah agreed to swap with him, so she now does a Wednesday. Gordon no longer does a Tuesday and only does a Thursday. Tim is taking a 6 week break as he has now started a college course. Evie may be staying, but there again..... Friday has had all sorts of people covering recently (many thanks to those of you that have - it is appreciated). Monday seems to be the only stable night at the moment!!

✓ **Feedback (Thursdays)**

On Tim's last Thursday before his break, the Thursday team were feeling a little generous (no we didn't give away any batteries, some things we will never do!!). Yes Scots people can be generous and any rumours to the contrary are usually spread by sassenachs or BT engineers. When we discovered a patient on Ward 8 had her birthday that day, we decided to present her with a "Limited Edition" mug as a memento from Radio Heatherwood. When we went to deliver it, not only was she listening (a rarity for a mug winner to be

listening) but she was very complimentary of the service we provide and was absolutely delighted to receive a mug.

☞ **Wedding Bells Again**

September seems to be the time Radio Heatherwood presenters "get the urge". Last year Stuart Doderer got married. This year it was David Griffiths' turn. Congratulations from everyone, David, we wish you and Karen every success for the future.

☞ **Messages**

Every once in awhile a message is left with either a presenter, or on the answer machine and this then fails to be left on the clip for the appropriate management team to deal with. If you take messages: please please leave them on the clip.

Saturday 25/9 A member of the public phoned to complain about our response to her donation of records. She says she left a message on the Monday answer machine, on Wednesday she left a message with a presenter who said they would be collected Friday. This might just be an attempt to get us to collect them straight away but does not give a good impression.

PS. All donations are collected by a member of the senior staff and only authorised to other members by the manager.

Dave.

* *More Yakkety Yak*

Who thinks love hurts ?

Who hates men ?

Who lives in fear of their Teamleader ?

☛ *Loan Radio Ward Rounds*

A reminder to all that some wards are putting the radios back in the sisters office or like on ward one, in a blue basket at the end on the ward on the ladies end. Please check these places and replace the radios in the empty lockers.

☛ *Battery Sales*

Don't forget to record those sales/ freebies !!!!!!!

☛ *Twilight Zone*

Some more strange cases of disappearing patients has been reported this week 13/8, adding to the growing list. The question everyone is asking, is Heatherwood part of the twilight zone?

1993

What's On Next ?

All of the above will raise money for the station. Tell your families and friends to support our events.
