The Radio Heatherwood staff newsletters took many styles and methods of production during its publications.

We have recreated an issue distributed by email to radio staff and also posted on the staff noticeboard.

This newsletter originally published as above date.

The only changes made to these emails have been the removal of personal phone numbers and email addresses.

Hi Guys

With reference to the above and Matthew your comments.

It would be easier to put a man on the moon, than get answers from HTS or the trust. I have no real news which I can put in the public domain. I would like to be able to tell you some positive news but it might give us all false hopes. We have had numerous promises with best intentions from the trust reps but sadly HTS have not honored those.

At this moment in time there would appear to have been some high level discussions within the trust and a new coordinator has taken up the reins to get this completed not just for us but for Wexham as well.

Physical activities which will ensure our connection are at a sensitive stage and I remain optimistic that a physical link between our two premises might be in place in the near future.

Our physical presence on the wards is as important as ever, because it is this that is driving hospital staff and patients to complain about the radio situation.

We know it's tough, but we must all remain optimistic.

When I know for sure you will know ?

Regards
Peter J Davidson-Smith
