

23rd November 1992

To All Presenters

The development and success of the loan radio service on the wards has prompted a request from patients to change the daytime service from Radio 210.

On Saturday 28th November the radio station will be changing the availability of the service during the day.

Radio Heatherwood has obtained permission to re-transmit Radio Two as a holding service on it's medium wave frequency. This means from this saturday onwards daytime service on the loan radio sets will be Radio Two and also on Channel Three on the bedhead units.

The revised services which will be available are :-

999Khz AM & 301m MW

(Loan Radio's & Any AM Radio) RADIO TWO & RADIO HEATHERWOOD

Bedhead units:-

Channel 1 Capital Radio

Channel 2 Radio 210

Channel 3 Radio 2 & Radio Heatherwood

Channel 4 Radio 4

This coming saturday morning the radio service on the loan radio sets and the bedhead units will be disrupted whilst the changes are carried out.

P.J.Davidson-Smith
Secretary Radio Heatherwood
