

Dear Radio Heatherwood Presenter
Ask yourself this question:-
In the year to date (1996) why has
there been only one newsletter ?.

Answer:-
Presenters are not sharing their
experiences by providing feedback
stories.

Which team was locked in a ward for their safety ?,
Where's the story ?

At this present moment in time after almost six months I still have,
barely a page of news stories.

The presenters newsletter is your voice in the station it conveys your
thoughts your ideas and your personal experiences.

The provision of the radio service is a team effort. Apathy has no part
to play in the running of this station, don't let it rule your life
: participation is the name of the game.

Support your Newsletter
Send in those stories !!!!!
